POW / MIA NEWS

Submitted by Philip Morris, POW/MIA Chairman

Updated July 2, 2016

AMERICANS ACCOUNTED FOR: The number of US personnel missing and unaccounted-for from the Vietnam War is **1,618**. Most recently accounted for was **Colonel Patrick H. Wood, USAF**, listed as MIA on 2/6/67, North Vietnam, remains returned on 12/14/15, and identified 2/29/16.

Patrick H. Wood

DPAA DIRECTOR RESIGNS: LTG Michael S.

Linnington, USA (Ret), named as DPAA Director in June, 2015, abruptly resigned on June 16th to accept a position as CEO of the Wounded Warrior Project, an NGO headquartered in Jacksonville, Florida. There had been considerable anticipation of hearing a comprehensive report on his first full year since assuming the reins at DPAA. All were looking forward to learning what has occurred, changes and improvements made, and plans for further implementing his promise a year before to be DPAA Director for at least ten years and his commitment to sustain DPAA's priority on Vietnam War accounting for at least the next 3-5 years. This unexpected reversal of his pledge changed the environment dramatically; however, all present for the League's 47th Annual Meeting (see below) were courteous and attentive to Mr. Linnington's explanation on the reasons for his abrupt departure.

PRESIDENT VISITS VIETNAM: On a trip to Vietnam from May 22-25, President Obama met with senior Vietnamese officials. During a press conference concluding his official meeting, he stated, "*On behalf of the American people, including our veterans, I want to thank the government and the people of Vietnam for the many years of cooperation to account for Americans missing in action – solemn efforts that we'll continue together.*"

47TH ANNUAL MEETING HELD LAST WEEK: At the Opening Session, **League Senior Policy Advisor Richard T. Childress** presented remarks – fully coordinated with and supported by League Chairman of the Board and CEO Ann Mills-Griffiths – assessing DPAA's first year as a DoD agency. His fair, objective, critical observations held the rapt attention of family members, veterans and all US officials present. The full text of Childress' remarks is available here, [A Glimpse into the Future](http://www.pow-miafamilies.org/wp-content/uploads/2012/02/Richard-Childress-6-23-16.pdf) (http://www.pow-miafamilies.org/wp-content/uploads/2012/02/Richard-Childress-6-23-16.pdf). The incoming **Deputy Director of DIA, Ms. Melissa Drisko**, spelled out DIA's full and continuing support for its Stony Beach Team of specialists, now the only US Government unit focused solely on Vietnam War accounting, primarily on Last Known Alive (LKA) cases, interviewing witnesses, collecting relevant archival material and augmenting DPAA investigation capabilities, including those of DPAA Detachments in Vietnam, Laos and Cambodia.

Legislative update July 2016

Bart Farzati, Government Affairs Chairman

On May 12, **S.2921** was placed on the US Senate Legislative Calendar, for a floor vote. However, if this bill does not move, it is unlikely that the Toxic Exposure Research Act and other veteran's issues in the bill will pass this term. The bill expands Caregivers' benefits to Vietnam Veterans and provides leasing authority for the West LA Veterans Affairs Campus to provide housing for homeless veterans. The bill also reforms the process for removing VA executives after the administration decided not to defend recent legislation allowing employees to be fired. **S 901 which is supported by VVA and AVVA has been rolled into this bill.** This bill currently has 43 cosponsors including Sen. Casey (PA), but not Sen. Toomey (PA). Please call Senator Toomey at (202) 224-4254 and ask for his support. Adapted from "VVA policy initiatives 2016" VVA.org.

S.2896 - Care Veterans Deserve Act of 2016 Sen. McCain (AZ). A bill to expand the use of the Veterans Choice Card is being debated by the Senate and is opposed by most veteran's organizations including VVA. This bill would expand the Choice Program to give most veterans the choice to use VA care or the choice card to access private health care. The bill would also require the VA to contract with a national walk-in clinic for walk-in non-emergency care. It would also let doctors treating veterans under VA contract to practice across state lines. VA pharmacies would also be required to have weekend and night hours. VVA is opposed to this bill because it could drain money and patients from the VA Health Care System. This bill has caused a rift in the veterans' community because an organization of veterans advocating for the bill is seen as partisan and has questionable funding in the eyes of many organizations. While we are officially opposed to the bill, I encourage all members to read it at <https://www.congress.gov/bill/114th-congress/senate-bill/2896/text?q=%7B%22search%22%3A%5B%22s2896%22%5D%7D&resultIndex=1>

The administration has announced a "**Cancer Moon Shot**" program designed to be a major push for the **research and treatment of cancer**. The VA will be a big player if this happens. The Departments of Defense and the Veterans Affairs are increasing their investments in cancer research, including through funding Centers of Excellence focused on specific cancers, and conducting large longitudinal studies to help determine risk factors and enhance treatment. "The Whitehouse Briefing room online Feb 2016". The Microsoft Corporation will allow the VA to use their supercomputer to analyze vast amounts of data. This would require additional funding and is not likely to be approved soon.
